**BROTHERS METAL TECH CORPORATION
CHITTAGONG SHIPYARD**

Established in 1999, Brothers Metal Tech Corporation is a well-organized firm with a dedicated group of young and energetic professionals, who all are engaged as service providers in various sectors, this included heavy construction equipment, Crane, Port Equipment, Marine Power Generation Equipment Supplier, Generator & Turnkey Project Handling, Infrastructure, Inland Road and Water Transport, Heavy Lifting & Haulage, Local Shipping Agency business, Ship's Steel Plate, Equipment Sales & Purchase, Ship Chartering and Ship manning. Over the short period, we have expanded miraculously as an independent and internationally tuned business organization with links in many parts of the world. We could reach this stage of success due to our selection of professionals in the respective fields who have vast experience and marvelous achievements. Brothers Group not only provides services but also diagnoses the problems and solves them with one stop solutions and state of the art technology. And thus we could enhance reputation in the local and international market.

OUR VALUES

WISDOM

We create platform for our staffs to showcase their ability and judgment based on knowledge and experience sharing.

Q-HSE

We recognize that Q-HSE is a fundamental and integral part of everyday business and this is continuously communicated by all employees through internal training programmes. We believe that our internal and external training programmes are the keys to provide the continuous improvement that we seek and strive for, in our effort to achieve ZERO accidents or incidents.

The Brothers Group Q-HSE system equips our employees with all the necessary tools to build, review, revise and document "Safe Systems of Work" for all our work activities. Hazard Analysis, Risk Assessment, Method Statements, Calculation, Lifting Studies, Excavation, Digging, Demolition Studies and Transporting Studies are all a part of daily life, written and executed to the best industry standards by trained, skilled and competent staffs. We require all employees, contractors, sub-contractors, visitors and any other who may be affected by our operations to share this commitment by complying with our policies and procedures, and to understand that they too have legal and moral obligations to themselves and to one another.

Our group enjoys equal employee rights. As such they are our valuable assets and we do our best to ensure that their safety goes beyond the implementation and compliance of regulations, policies, procedures and safety audits. Our commitment to safety does not end with our employees; it also includes the safety of all others who may be directly or indirectly involved in any type of operations.

Brothers Group takes great pride in its long history of continuous improvement in all areas of Quality, Health, Safety and Environmental matters. We continually use our Q-HSE process as a management system for conducting our business with care and professionalism.

Zero tolerance regarding Health, Safety or Environmental matters in all our operations is strictly maintained. It is through our training, continuous development and involvement of our employees, and the commitment of our management that we will ensure the well-being of everyone at and associated with Brothers Group.

OUR COMMITMENTS

TO THE CLIENTS

Clients are the most valuable assets to us. We always emphasize on their requirements. Based on the demand placed by our valued clients, we make strategy to satisfy them at a go.

TO THE VENDORS

We believe in quality supply and timely delivery. It is our vendors who can ensure that through their works. We are committed to ensure equal opportunity to all of our vendors and business partners. We treat all of them with high respect.

TO ENVIRONMENT

We are fully aware of the growing global awareness towards safety of the ecology. We help to conserve resources so that our future generations get an opportunity to live in this world at least in the way we do. We thus, ensure our environment-friendliness in each and every action.
